

## Olympic Radiology Celebrates 10 years in Our Bremerton Facility

Olympic Radiology is proud to celebrate the 10th anniversary of our Bremerton facility. Olympic Radiology is an independent, locally owned and operated business founded by a group of dedicated local physicians to offer comprehensive medical imaging coupled with the best possible care for the people of the West Puget Sound. Our Bremerton facility opened its doors in September of 1999.

Olympic Radiology celebrates 10 years 1

Can't view images in PACS? 2

Door Prize Drawing winners 2

10th Anniversary BBQ pictures 3

Olympic Radiology physician James Rohlfing, MD enjoying the 10th Anniversary BBQ celebration.

Physicians and owners, James Rohlfing, M.D, Bradley Brown, M.D., and Steven Bell M.D., helped establish Olympic Radiology, and continue to provide the latest medical imaging technology and personal service and care to patients in Kitsap County and their referring clinicians.

Our Summer BBQ is held yearly to celebrate each anniversary, and to show appreciation to members of the community who have made success of the facility possible. This year's BBQ was a special 10th Anniversary Celebration. It was our pleasure to host referring clinicians, office staff, patients, and other members of the community.

Olympic Radiology is proud to have served the West Puget Sound community for a decade.

## Trouble viewing images in PACS?

You login in to your Olympic Radiology PACS screen and can see reports, but no images. What can be done? In most cases you are logged in to another session either on another computer, or in a different window. The PACS server will not allow your new session to view the images.

In order to fix the problem, log out by using the “door” icon in the upper right of your PACS screen. This tells the server that you are logged out. Use the door, and not the “red X” in the browser each time you log out of PACS.
