Serving West Puget Sound's Medical Community

Web Portal/PACS Coming Soon *-Images and Reports in Real Time!*

Olympic Radiology is excited to announce that we are in the final stages of implementing our new Web Portal/PACS system.

Our Web Portal was built with the referring clinician in mind. Some key features include:

- ◆ Images available TO YOU as soon as the patient's exam is completed.
- ◆ Reports online the moment they are finalized.
- ◆ E-Mail notification when results for your patient are available.
- ◆ Customized homepage. Alter how you see information on-the-fly. Your preferences are saved.
- ◆ Burn a patient CD; print to paper; or print to film from your own computer!
- ◆ Online consults with the radiologists. View the images online with the radiologist while you discuss your patient's case on the phone.
- ◆ Share access to your group partner's patients, using your preferences.
- ◆ Give your office staff access via their own logins to view the images and reports. Import them into your own EMR system.

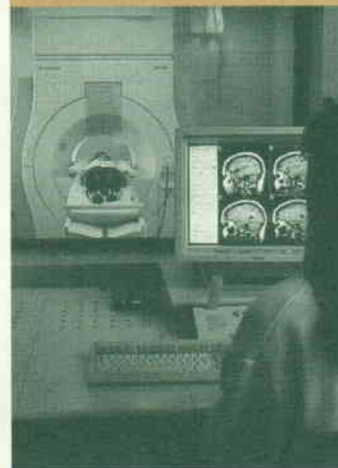

We will be contacting your office soon to schedule training sessions. In the mean time, if you have any questions please don't hesitate to contact us.

- ◆ Locally owned and independently operated.
