## Olympic Radiology's PACS gains popularity

MRI-Knee images as seen in PACS

"Its so easy to use". "We love all the features". "The image quality is amazing". These are just a few of the comments we have received from users who are now registered to use the Olympic Radiology PACS (Pictorial Archive Communication System).

Just two months after implementation, Olympic Radiology has found great success with their PACS. "The fact that the clinician can have their images within minutes of the patient completing their scan makes this product very popular", states Michele Sauer, facility administrator. "The office staff love having the final report at their fingertips".

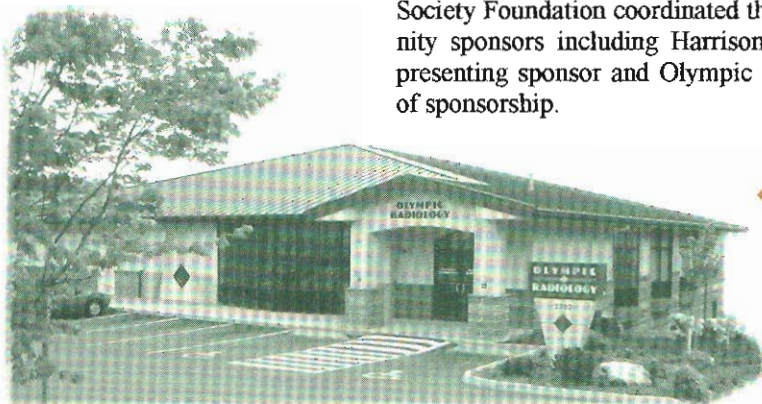

PACS users can access their images and reports from any computer, with internet access and Internet Explorer including their home computer and computers at Harrison Medical Center.

If you are not currently a registered user, contact Wendie Pond, Assistant Administrator or Michele Sauer, Administrator for set up and to arrange for a training session either onsite or over the phone. They can be reached at (360)479-6555.

## Kitsap County Medical Society Family Fun Run

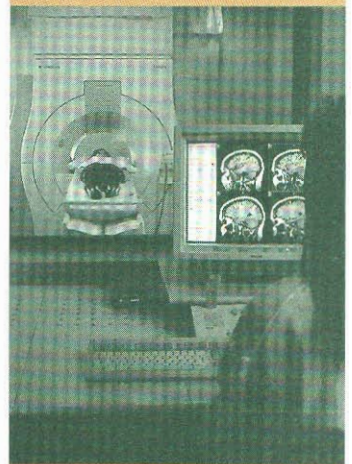

The 3<sup>rd</sup> annual Kitsap Family Fun Run and Fitness Fair was held Saturday, May 12<sup>th</sup> from 1-4pm at the Kitsap Sun Pavilion. Over 400 registrants participated in the afternoon's activities which included a 1.2 mile and 3.2 mile run/walk around the Fairgrounds. Participants also enjoyed the fitness fair's nutrition and activity booths in the Kitsap Sun Pavilion throughout the afternoon. The event was the culmination of a 7 week marathon mileage accumulation fitness and nutrition program that was offered county-wide in the schools. The Kitsap County Medical Society Foundation coordinated this event with over 40 community sponsors including Harrison Medical Center, the event's presenting sponsor and Olympic Radiology, with their 3<sup>rd</sup> year of sponsorship.
